

## MARJOLEIN V. ANCONA, D.M.D.

“We’ll change the way you feel about going to the dentist,” says Dr. Marjolein Ancona. Fear and apprehension may disappear forever—replaced by a sense of safety, security, stability, comfort and peace of mind. Dr. Ancona is dedicated to providing friendly, leading-edge dental care for individuals and families that’s always convenient with customized financing. She’ll take the time to get to know you personally and to answer every question.

From preventive exams to gentle cleanings to advanced technology for cosmetic and restorative procedures, the techniques used by Dr. Ancona are among the finest that modern dentists have to offer: Invisalign clear braces, ZOOM in-office whitening, no-prep Lumineers, custom-crafted crowns and bridges, tooth-colored fillings, digital x-rays, cavity laser detection, air-abrasion for no-drill preparation, dental implants, an Intra-oral imaging system for detecting potential problems, quick impression “preview” models, and full mouth restorations.

“No smile is beyond beauty,” Dr. Ancona insists. “Even for those with severe problems and for those who think that cosmetic dentistry won’t help them, we’ll work closely together to determine the best course of action, so they can make informed choices.”

Over the years, Dr. Ancona has created more than 10,000 beautiful, healthy smiles. And her compassion for her patients extends far beyond the Cincinnati USA area. For more than a decade she has provided free dental care to orphans in Romania, to Taramahara Indians in Mexico, to the poor in Armenia and China, and to patients living in the city dump in Cairo, Egypt. She has also helped to establish Romanian dental clinics, training local dentists in new procedures so they can continue to provide better care to underprivileged families. Dr. Ancona has received numerous awards in recognition of her international service, including the Ohio Dental Association’s Humanitarian Award of Excellence, a Certificate of Recognition from the American Dental Association’s Council on ADA Sessions & International Programs, and a Humanitarian Award from the Academy of Dentistry International.

Back home, Dr. Ancona serves on the board of the Rescue Community Center, a nonprofit, faith-based charity that serves the poor and disadvantaged, and she offers prayer ministry for her patients. She is also starting a new program for diabetics.
